THANK YOU FOR CHOOSING US TO UNDERTAKE WORK ON YOUR PROPERTY

We will be commencing work shortly on the date mutually agreed with you.

We will endeavour to abide by this date, however as you will no doubt appreciate some of our work is carried out to the exterior of properties, as may be the case with your project and as a result is weather dependant, we feel that it is not only important but also courteous to make you aware that despite our best efforts this is an unavoidable possibility.

However where possible we will give you ample notice should we anticipate any delay in commencing work on your property.

As a small independent company we ask for a 30% deposit prior to commencement of work, this is simply to secure the date and cover the cost of materials, for more sizeable projects we will set a contract in place agreeing expected project duration and payment terms etc, this is for your peace of mind as much as ours.

We would ask that during the time we are working within your property that all small children & pets are kept away from the working area, this is not only due to the obvious danger of wet paint, but also the use of sharp blades which are contained within our tool boxes.

Only trade quality products are used whenever we undertake a project.

We have full public liability insurance to the value of £2,000,000.

Payment of all work is due on completion, either by bank transfer or cash.

Be assured that all our work is guaranteed for 12 months.
